

## Observation of Composite Particles in Graphene by ARPES

Eli Rotenburg

Advanced Light Source, Lawrence Berkeley National Lab, USA

### CV:

1993 PhD, University of California Berkeley

1993 – 1996 Postdoc., University of Oregon

1996 – 2002 Scientist, ALS and LBNL

2002, Senior Scientist, ALS

**Research:** The beauty of the electronic structure of solids: relationship to geometry, symmetry, and dimensionality; many-body effects; quasicrystals, graphene, and graphite.
