

## Transient phases and phase transitions probed with ultrafast X-ray scattering and spectroscopy

Alexander Föhlisch

Physics, University of Potsdam and Helmholtz-Zentrum Berlin, Bessy, Berlin, Germany

CV:

1999 PhD Uppsala University, Sweden

2000 Professor, Physics, Hamburg U.

2006, Habilitation, Hamburg

**Research:** electronic structure and the ultrafast processes; charge transfer and molecular dynamics at interfaces, phase transitions and switching processes in solids; femtochemistry at active centres on surfaces and in the liquid phase
